Dietary information is very important and if you do not provide it we cannot cater for your needs.

The idea behind Wee Drum is to share our rhythmical connection. On this booking form there is space for you to offer an activity, a poem, a song, a rhythm, a story, breathing...anything you wish that connects to rhythm.

Be specific. Be conscious. Have intention.

How long will your session last? What do you need to do it from us?

Whatever is offered will be the template around which we build our weekend.

I will facilitate the beginning of the process but it very often takes its own direction from thereon in and I am comfortable in standing back to let the process unfold and I invite you to do the same.

I look forward to meeting you, old friends and new. Travel Well and In Peace.
